

Student Name: _____

Arabic HW [8]: Using rules 280, 285, 290 and 295, complete the following tables. I have done few for you as examples.

Procedure to follow:

1. For the Modaf (first noun)
 - a. Determine if Surf is allowed or forbidden (using Rules 280, 285). The Modaf can't have a Tanwin any way (Rule 295-3) but we find out the Surf so that we decided if Kasra is allowed or not.
 - b. Using Rule 290, determine how to make the Modaf Marfo, Mansob and Majroor.
2. For the Modaf Ilyh (second noun)
 - a. Determine if the Surf is allowed or forbidden. The Modaf Ilyh can have Tanwin (Rule 295-4).
 - b. The Modaf Ilyh is always Majroor. So, using Rule 290, determine how to make it Majroor.

For example, the boy's built (جَزَامٌ وَكِدٌ)

1. The word (جَزَامٌ) is 1M and its Sarf is allowed. Therefore, it can have Kasra. Its Marfo form is Dama, Mansob form is Fatha and Majroor form is Kasra.
2. The word (وَكِدٌ) is 1M and its Sarf is allowed, therefor it can have Tanwin and Kasra. Since the Modaf Ilyh has to be always Majroor, then the Majroor form is Kasra. Since the Tanwin is allowed, then the Majroor form is Tanwin Kasra (وَكِدٍ).
3. If we specify the Modaf Ilyh by Adding Alif-Lam, then it will be (جَزَامُ الْوَكْدِ). The word (الْوَكْدِ) has Alif-Lam, therefore according to Rule 285 row 1, it can't have Tanwin. Therefore, it will be (الْوَكْدِ) not (وَكْدٍ).

Second example is (مَنْزِلٌ لَا عَيْبِينَ). The second noun (Modaf Ilyh) is regular 3+M, therefore according to Rule 290, row 6, column 6, its Majroor form is Ya'a. Therefore, (لَا عَيْبِينَ) is correct and (لَا عَيْبُونَ) is not correct. See the table below.
